

Main Service Entrance

ServiceTrack™

ANSI/IEEE C62.41 Category C

Ideal for main service entrance and switchgear applications. Installed at your service entrance, ServiceTrack's fail-safe modular design provides total safety and containment against surges and lightning. The unit is relatively small and compact, allowing flexible installation options.

SurgeTrack™

ANSI/IEEE C62.41 Categories A, B, & C

Ideal for main service entrance, distribution panel and branch panel applications. SurgeTrack products are the choice for main service, distribution panel, and branch panel applications. Compact design offers easy installation. The optional enhanced transient filter will extend your equipment life and reliability.
